Availability and order process for Assembled DG8SAQ Vector Network Analysers

June 20th 2010.

Dear All,

A 3rd batch of Assembled DG8SAQ Vector Network Analysers has now been received and is being shipped to people who have registered on the VNWA Waiting list.

Currently there is a delay of about 2-3 weeks in delivery of assembled VNWAs after registering your interest, however this delay will increase during July due to holidays.

How to register interest for Ordering

You are kindly asked to register your interest in purchasing an **Assembled VNWA** by sending an email:

VNWA-orderinfo@sdr-kits.net

Please provide A. your full Postal address, B. how many Assembled VNWA you wish to order and C. your proposed payment method. (Paypal preferred). Also if you wish, please state if you are an Education, Radio Amateur or Professional user.

- A standard confirmation email will be sent in return registering your interest. There is **NO** obligation on you to purchase the unit by registering your interest.
- Please **DO NOT SEND ANY PAYMENTS**.
- VNWA Kit of parts are currently out of stock and will start shipping again in September 2010.
- Ordering process for other SDR Kits and parts is unchanged

SDR-Kit will inform you by email about **2 weeks before shipment date** when your VNWA will be ready for shipment. You will then be asked to place your order and make your payment. If you changed your mind and are no longer interested in purchasing an Assembled VNWA you may cancel.

Assembled VNWA Pricing

Deliverables comprise the Assembled and Tested DG8SAQ Vector Network Analyser with USB interface and including Enclosure and USB Cable including 90 days return/exchange Warranty:

- The DG8SAQ Vector Network Analyser requires a suitable Personal Computer (1 GHz processor) with USB port capable of supplying 500mA with a recent Microsoft Operating System.
- Microsoft 64 bit and 32 bit Operating Systems like Windows 7, Vista, XP, Windows 2000 and Windows 98 are supported
- Operating systems **prior** to Windows 98 (e.g. Win95, Win98SE, Win ME, Win NT are **NOT supported**/

VNWA Driver, Current VNWA Software and VNWA Helpfile will be downloadable from Internet. Driver, VNWA Application and VNWA Helpfile will be supplied on CDROM on request at cost. Hardware documentation will not be supplied however Kit documentation may be downloaded from SDR-kits.net.

As a minimum register to receive special notices in event you do not want to receive daily emails. Alternatively keep a look out for announcements on the SDR-Kits Website.

We trust this announcement will answer many of the questions you have been asking. We understand this and will try our best to ship as quickly as possible.

Regards,

Jan & Tom
