

PA0KLT – V4.20 & V4.21 Firmware – RIT and Fast Tune Options.

www.SDR-Kits.net

Firmware from V4.20 offers RIT Support
 One press on RIT button enables RIT, a second press disables RIT. RIT range is +/- 10 KHz
 A press on CLEAR button resets RIT Freq. to 0 KHz offset
 Connecting pin 16 IF/Mode/RIT to GND will remove RIT and IF Offset
 Speed button on Rotary encoders increases resolution by x25
